

## TRAINERS & MATERIALS

- Trainer mentors with deep understanding of subject
- Personalised attention, concept clarity & speed building sessions
- Unique “**FastMaths**” practice – Flash sums like:
  - $126 \times 124$ ,  $512^2$ ,  $83647 \times 9999$ ,  $^2\sqrt{1444}$ ,  $^3\sqrt{74088}$
  - Answer in under 10 seconds!

## COURSE STRUCTURE

- 9 carefully designed levels (complete course with min.6)
- Each level: 3 months | 2 hrs / week
- For ages 5 to 15 years
- Teacher Training also available – build a career or part-time income source!

## UNIQUE FEATURES

- Hourly fee is less than cost of a movie ticket!
- Course books | Abacus kit | Certificates
- **FastMaths** | Unlimited Online exercises

School

# THE 10X SCHOOL

Empowering Minds, Transforming Futures

# M<sup>3</sup> Genius Program

For children aged 5 to 15

- 💡 **Mental Math (Abacus, Vedic Math, Finger Math)**
- 🧠 **Memory & Brain Boosting Activities**
- 💰 **Practical Financial Skills**  
(Savings, Budgeting, Needs vs Wants, Banking, Compounding)

## WHY THIS COURSE ?

- Today's children often use only their fingers—for mobiles, tablets, and computers. Unlike 90s kids who played games like:
  - Gutte-Chotangal, Goli, Kith Kith-Pandi, Gilli Danda,...
 These games unknowingly stimulated both side brain.
- 90% of children are not taught money management in school. Most teens don't understand savings, debt, or budgeting – until it's too late.

## Solution

### M<sup>3</sup> GENIUS PROGRAM

1. Abacus (Finger, Kit & Mind): Perform calculations **5X to 10X faster** than traditional methods – a fun and powerful way to develop mental arithmetic skills.
2. Vedic Math: Learn to solve **complex sums in a flash** using ancient Indian techniques that enhance both speed and accuracy.
3. Memory Boosters: Use right-brain memory techniques to **memorise faster**, retain **longer**, and recall **smarter**.
4. Brain Exercises: Engage in puzzles, riddles, and brain games that **activate** both hemispheres of the brain, promoting **lateral** and **logical thinking**.
5. Financial Literacy: Build smart **money habits early!** Learn to manage money with confidence and responsibility through age-appropriate, practical tools.

## ABOUT US

Founded in 2021, The 10X School is built on over a decade of rich training and mentoring experience. With a passion for transforming young minds, we have successfully trained more than **1,500** students across all levels, both in India and internationally.

## OUR VISION

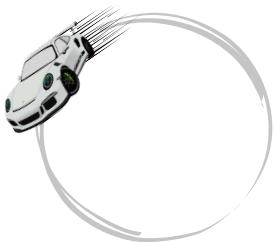

To empower **1 million** students by 2030 through innovative learning—reaching them directly and through school partnerships worldwide

20  
30

## OBJECTIVES

To **holistically** develop your child's brain by enhancing

- ⚡ Mental Maths (Speed & Accuracy)
- 🧩 Critical & Creative Thinking | Memory Power
- 💰 Healthy financial habits from a young age
- 🧠 Balanced Brain Function – Left & Right Hemispheres

Why balancing Brain? Imagine a car with slower right side wheels – it can't go forward, but only circle. The same happens when one side of our brain is less active or slower!
